Objective

Versatile Full Stack Developer with over 5 years of experience delivering robust, accessible, and responsive web solutions. Dedicated to creating user-centric products that exceed expectations, I thrive on tackling complex challenges and ensuring seamless performance across diverse platforms. Passionate about leveraging my technical expertise and creative problem-solving skills to drive exceptional customer satisfaction and innovative results.

Education

B.S. in Computer Science,
Notre Dame University
09/2015 – 06/2019 | Lebanon

Skills

React, Angular, Vue.js, Cypress, vitest,
Node.js, Python, Scala

Work Experience

Senior Software Engineer, CME

11/2020 – present | Remote

- **Mentored and guided software engineers** to enhance their technical skills, foster collaboration, and achieve project goals.
- **Thrived in an agile methodology environment**, contributing to iterative development cycles and delivering high-quality solutions.
- **Actively engaged in a long-term US-based project**, leveraging diverse full-stack technologies to deliver scalable and efficient software solutions.
- **Developed a comprehensive vendor portal using React** for the Saudi government in partnership with Deloitte, streamlining procurement and vendor management processes.
- **Engineered a student information system using Angular** for a prominent university, enhancing administrative efficiency and student engagement.
- **Designed and implemented a parking management software using Angular** for Orbility, a leading parking systems company in France, optimizing operational workflows and user experience.

Front-End Engineer, Fineon Exchange

01/2020 – 11/2020 | Beirut, Lebanon

- **Designed and developed innovative fintech solutions for export finance** using AngularJS, enhancing functionality and user experience.
- **Led the migration of legacy AngularJS applications to Angular 8+**, ensuring modernized performance, maintainability, and scalability.
- **Integrated Webpack into a legacy AngularJS project**, significantly improving build efficiency and optimizing application performance.
- **Developed robust RESTful APIs using Node.js and Express.js**, enabling seamless data exchange and backend functionality for diverse applications.
